

Need to Know Info

- 1,500 Mexican women die each year from botched abortions.
- 1,452 black babies are aborted every day in the United States.
- Between 500,000 and 750,000 unborn Chinese girls are aborted.
- Minorities abort at a rate of 10.7 per 1,000 population, which is more than three times the rate of only 3.3 abortions per 1,000 population for non-Hispanic whites.
- There is an increased incidence of breast cancer among black women who have had an abortion/s, the increase centering largely among black women who were over 50 years old.

A. Laing, Br. Ca. Risk Factors in African American Women, J. Nat. Med. Assn., Dec. '93, Vol. 85, No. 12, pg. 931.

Margaret Sanger

- Leader in the birth control movement that led to the legalization of contraceptives and abortions.
- Founder of Planned Parenthood, the largest abortion provider.
- Sanger promoted *eugenics* which is the belief that the human race could be improved if certain people (the poor, uneducated, minorities, and the infirmed) did not reproduce.

Minority women constitute only about 26% of the female population (age 15-44) in the United States, but they underwent approximately 36% of the abortions.
